

Supply Chain Intern

ABOUT THE ROLE:

This internship offers a valuable opportunity to gain hands-on experience in supply chain management while supporting the Neauvia Supply Chain team.

WHAT WILL YOU DO:

- Assist Supply Chain team in order processing for products across worldwide markets, ensuring high level of service levels and product availability.
- Collaborate with the Demand Planning team to resolve availability issues.
- Support the timely and complete delivery of products.
- Generate and analyze supply chain data to drive business decisions.
- Gain exposure to global supply chain processes and best practices.

This role provides a unique chance to develop end-to-end supply chain knowledge while working in a dynamic, cross-functional team. You'll make a tangible impact by ensuring product availability for customers, while also strengthening your project management and supply chain skills.

What We Want You To Bring Along

We'd love to see candidates who are:

- Interested in developing their career in Supply Chain area
- Students/graduates of higher education studies (logistics preferable)
- Proactive, curious and committed to deliver results
- Strong in communication skills and teamwork
- Analytical and logical thinking
- Fluent in English, written and spoken
- Excel knowledge

What We Offer

- Full-time / Part-time contract (umowa zlecenie) and onboarding program
- Extensive on-the-job training

- Multicultural work environment in the newly designed office
- Continuous learning and development, potential assignment changes
- Possibility of permanent employment after finishing internship
